GET GOLD

# A–Z

FOR GOLD BUYERS IN THE UAE

## The A–Z of buying gold in the UAE

Twenty-six things to know before you buy jewellery, bars or coins, from the people who built Get Gold.

# How to use this guide

Read it front to back, or jump to the letter you need. Each entry ends with a tip or the page on getgold.ae that does the work for you.

| | | |
|---|---|---|
| A | Alerts | 3 |
| B | Bars and coins | 3 |
| C | Compare stores | 4 |
| D | Diamonds | 4 |
| E | Emirates ID check | 5 |
| F | Fineness and hallmark | 5 |
| G | Gold value | 6 |
| H | Half the fee | 6 |
| I | Invoice | 7 |
| J | Jewellery sets | 7 |
| K | Karat | 8 |
| L | Live price | 8 |
| M | Making charge | 9 |
| N | Not ready? Save it | 9 |
| O | One request, many offers | 10 |
| P | Pay the store | 10 |
| Q | Questions to ask | 11 |
| R | Ring and bangle size | 11 |
| S | Store visit | 12 |
| T | Tola and pavan | 12 |
| U | UAE gold areas | 13 |
| V | VAT | 13 |
| W | Weight | 14 |
| X | eXchange and buy-back | 14 |
| Y | Yellow, white or rose | 15 |
| Z | Zero surprises at handover | 15 |

# A Alerts

Waiting for a better price? On the gold rate page you can get a daily email, or one alert when the rate for 24K, 22K or 21K reaches your target. It's free, and you can unsubscribe at any time.

**Tip:** Set the alert for the karat you plan to buy.

**getgold.ae/gold-rate**

# B Bars and coins

Gold bars and coins on Get Gold come from verified UAE stores and are priced live by weight and fineness. When a certificate gives an exact fineness, such as 995, 999 or 999.9, that figure sets the gold value.

**Tip:** Check that the certificate or assay card matches the bar.

**getgold.ae/live-price**

# C

## Compare stores

Put up to four stores side by side for the same kind of piece, and rank them by the final total or by the making charge. The Value Score shows how much making and fees add on top of the gold value.

> **Tip:** The gold value is the same everywhere. Compare the making charge first.

**getgold.ae/compare**

# D

## Diamonds

Carat is weight, not size. A 1 carat round diamond is about 6.5 mm across, and a 2 carat round about 8.1 mm, only about 25% wider. The size guide shows each shape at real size on your phone.

> **Tip:** Ask for the GIA or IGI report number and check it on the lab's own website.

**getgold.ae/size-guide**

## E

# Emirates ID check

Every order starts with a short identity check, whatever its value. Residents scan their Emirates ID, visitors their passport, then take a live selfie. It takes about two minutes. Get Gold keeps only the result, and the store sees that it passed, not your ID images.

**getgold.ae/identity-checks**

## F

# Fineness and hallmark

Fineness is the gold content in parts per thousand: 999 for 24K, 916 for 22K, 875 for 21K and 750 for 18K. The hallmark is the stamp on the piece that shows it. Check that the hallmark, the listing and the invoice agree.

G

## Gold value

The gold value is the weight in grams times the live rate for the piece's karat. It moves with the market through the day and is the same in every store. Everything else in the price is added on top, each on its own line.

**Tip:** Anything above the gold value should have its own line.

H

## Half the fee

New to Get Gold? Your first three qualifying orders get 50% off the Get Gold service fee: 0.5% of the merchandise price instead of 1%. The exact fee is shown before you order, and it never applies to delivery.

# I

## Invoice

The store is the seller, so the store issues your invoice. It should show the weight, karat and price. Keep it with any certificate: you'll need both for an exchange, a warranty claim or a later sale.

# J

## Jewellery sets

Bridal and jewellery sets are heavy, so a small difference in making charge adds up. Compare the total and the making for the same weight and karat. Can't find the set you have in mind? Send a request with a reference image.

# K

## Karat

Karat tells you how much of the metal is pure gold: 24K is 99.9%, 22K 91.6%, 21K 87.5% and 18K 75%. A higher karat means a higher rate per gram and a softer metal. 18K holds stones well; 24K suits bars and coins.

# L

## Live price

Prices on Get Gold follow one shared 24K reference rate, rechecked every 10 seconds. If the latest quote is 60 seconds old, purchase requests pause until a fresh rate arrives, so no piece is priced on an old rate.

**getgold.ae/live-price**

M

## Making charge

The making charge pays for the design and craft. Each store sets its own, so it is the part of the price that differs most from shop to shop. On Get Gold it is always shown as a number in AED, on its own line.

**Tip:** Ask for the making charge as a number in AED.

N

## Not ready? Save it

Save a piece you like and set the total you're happy to pay. Get Gold tells you in your account when it gets there, and when the store runs an offer on its making charge.

## O

# One request, many offers

Can’t find the piece? Describe it once: type, purity, budget, emirate and the date you need it, with a reference image if you have one. Verified stores reply with item-specific offers, including making and certificate fees. It’s free, and you choose whether to continue.

**getgold.ae/requests/new**

## P

# Pay the store

You pay the store directly, after it confirms the final price and you accept. Before you pay a link, match the store name, the amount and the order reference. Never share a bank password or a one-time code.

**Tip:** A transfer screenshot doesn’t prove the store received the money. Wait for the store to confirm.

Q

## Questions to ask

Before any gold purchase, ask: What does it weigh? Which karat is it? How is the making charge worked out? Does the weight include stones? Is VAT included? Can I exchange it or sell it back?

R

## Ring and bangle size

Find your size on your phone. Set up the screen with a bank card or a 1 dirham coin, then match a ring or bangle you own. You get EU, US, UK and Indian sizes. If you're between sizes, choose the larger.

**Tip:** Measure late in the day: fingers are smaller in the morning and in air-conditioning.

**getgold.ae/size-guide**

## S Store visit

Want to see it first? Ask the store for a visit from the product page and choose a day and time. A visit request doesn't reserve the piece or lock the price.

## T Tola and pavan

UAE rates are quoted per gram, but many families still think in older units. One tola is 11.66 g, a pavan (or sovereign) is 8 g, and a ten-tola TT bar is 116.64 g. The gold rate page shows 1 g, 8 g and 1 tola for every karat.

U

## UAE gold areas

Deira Gold Souk, Meena Bazaar, Karama, the Sharjah gold souks and Abu Dhabi's Gold Centre all follow the same daily gold rate. The making charge is where shops differ, so compare live prices before you visit.

getgold.ae/areas

V

## VAT

Gold jewellery in the UAE carries 5% VAT, worked out on the merchandise, the Get Gold fee and any delivery. Investment-grade bars and coins (99% purity or more) can be zero-rated. Every listing shows the VAT that applies.

# W Weight

Gold is priced by the gram, so the weight matters most. Listings show the weight to two decimal places. When you receive the piece, check that the weight on the invoice matches the listing.

**Tip:** Stones should never be weighed as gold.

# X eXchange and buy-back

Ask about the store's exchange and buy-back policy before you pay, and keep the invoice. The store handles refunds, exchanges and warranty under its own policy and UAE rules. Don't resize or alter a piece before the store has seen a problem.

# Y

## Yellow, white or rose

The colour comes from the metals mixed with the gold. Yellow is the classic look, rose has more copper, and white gold is often plated with rhodium, which can need renewing over time. The karat tells you the gold content, whatever the colour.

# Z

## Zero surprises at handover

Delivery is charged once per order, and collecting from the store is free. At handover, check the tamper seal, invoice, weight, hallmark and any certificate. Don’t share a one-time code until the parcel and the recipient details have been checked.

> **Tip:** Report damage or a mismatched item straight away.
