GET GOLD

WEDDING SEASON GUIDE

Wedding gold, made clear.

A planner for bridal sets, rings and diamonds from verified UAE jewellers.

YOUR PLAN

Twelve weeks to the big day.

12 WEEKS BEFORE

Set your budget and karat

Save the pieces you like and set the total you are happy to pay. Get Gold tells you when a piece gets there.

8 WEEKS BEFORE

Compare stores

Put up to four stores side by side. The gold is the same; the making charge is not.

6 WEEKS BEFORE

Get your sizes

Measure ring and bangle sizes on your phone and save them to your account.

4 WEEKS BEFORE

Request what you can't find

Send one request with a reference image and your date. Stores reply with offers.

2 WEEKS BEFORE

See it, then request it

Book a store visit, then send your purchase request. The store confirms the final price before you pay.

WEDDING WEEK

Collect or receive

Collect from the store or have it delivered. Check the seal, invoice, weight and hallmark.

A suggested plan. Allow more time for made-to-order pieces.

CHOOSING THE KARAT

Which gold suits which piece?

24K	**99.9%**	The purest and softest. Mostly bars, coins and gifts that are kept rather than worn.
22K	**91.6%**	A rich colour, loved for traditional bridal sets and bangles.
21K	**87.5%**	A Gulf favourite for sets, bangles and everyday wear.
18K	**75%**	Harder, so it holds diamonds and stones well. The usual choice for engagement rings.

Yellow, white or rose?

The colour comes from the metals mixed with the gold, not from the karat. Rose gold has more copper. White gold is often plated with rhodium, which can need renewing over time.

Yellow

Rose

White

RING AND BANGLE SIZE

The right size, before you pay.

Open **getgold.ae/size-guide** on your phone. Set up the screen with a bank card or a 1 dirham coin, then match a ring or bangle you already own. Save your size, and rings that fit you are marked in the shop.

EU	US	UK	INDIAN	DIAMETER
49	5	J	9	15.7 mm
51	5½	K	11	16.1 mm
52	6	L	12	16.5 mm
54	**7**	**N½**	**14**	**17.3 mm**
56	7½	O½	16	17.7 mm
57	8	P½	17	18.1 mm
60	9	R½	20	18.9 mm
62	10	T½	22	19.8 mm

Late in the day
Fingers are smaller in the morning and in the cold.

The right finger
Measure the exact finger and hand you'll wear it on.

In between?
Measure twice more, then choose the larger size.

Sizes follow ISO 8653; Indian sizes vary slightly between jewellers. The store confirms the size before you pay.

DIAMONDS

Carat is weight, not size.

A 2 carat round diamond is only about 25% wider than a 1 carat. These circles are drawn at real size when this page is printed at 100%.

0.5 ct
≈ 5.2 mm

1 ct
≈ 6.5 mm

1.5 ct
≈ 7.4 mm

2 ct
≈ 8.1 mm

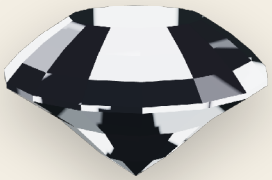

Cut
How well it returns light.

Colour
From colourless to light yellow.

Clarity
Tiny marks inside or on the stone.

Carat
The weight. 1 ct is 0.2 g.

Check the report. Ask for the GIA or IGI report number and check it on the lab's own website before you pay. The size guide also shows each shape at real size on your phone.

COMPARE BEFORE YOU COMMIT

Bridal sets are heavy, so making adds up.

Every store prices the gold from the same live rate. The making charge is set by each store, and on a full set the difference can be large.

STORE A · 22K SET · 60 G

2,400

AED making charge

STORE B · SAME SET

3,300

AED making charge

AED 900

apart before VAT, for the same gold.

Compare up to four stores

Rank them by the final total or by the making charge.

Watch for making offers

Save a set, and you're told when the store runs an offer on its making charge.

Example figures for illustration. Each store sets its own making charge.

MADE FOR YOU

Can't find the design?

Describe it once, and verified UAE jewellers reply with item-specific offers, including making and certificate fees. Sending a request is free and you choose whether to continue.

Piece Set, bangle, ring…	**Purity** 24K · 22K · 21K · 18K
Budget From and to, in AED	**Needed by** Your wedding date
Emirate Where you'll collect	**Reference image** Private, up to 5 MB

See it first

Ask the store for a visit from any product page. A visit doesn't reserve the piece or lock the price.

A known buyer on every order

A two-minute identity check protects you: nobody can order in your name.

YOUR CHECKLIST

Ready for the big day.

- [ ] Budget and karat agreed
- [ ] Ring and bangle sizes saved
- [ ] Up to four stores compared
- [ ] Diamond report numbers checked
- [ ] Final price confirmed by the store
- [ ] Invoice and certificates kept

Scan to start at **getgold.ae**. Follow @getgold.ae on Instagram for wedding season picks.

Products are sold by the listed stores. Gold prices can move.
