BARS AND COINS

Gold bars and coins, *priced live.*

From the live 24K reference
Rechecked every 10 seconds, the same reference for every store.

Priced by weight and fineness
When a certificate gives the exact fineness, such as 995, 999 or 999.9, that sets the gold value.

From verified UAE stores
Compare listings and rank them by the final total.

Fresh-price protection. If the latest quote is 60 seconds old, purchase requests pause until a fresh rate arrives.

BEFORE YOU BUY

- Check the fineness and that the certificate or assay card matches the bar or coin, including any serial number.
- VAT: investment-grade gold (99% purity or more) can be zero-rated in the UAE. Each listing shows the VAT that applies.
- Set a rate alert, and try the what-if calculator on the live price page.
