HOW IT WORKS

Live in four steps.

1
Register
Share your store and contact details in a few minutes, or ask us to visit and set it up with you.

2
Get approved
We review your trade licence and business details before your store goes live.

3
Add your pieces
Photos, weight, karat and your own making charge.

4
Receive requests
You confirm availability and the final price, and customers pay you directly.

THREE WAYS TO ADD YOUR PIECES

One by one
On your phone: details, photos, your making charge, then submit for review.

From a spreadsheet
Excel or CSV, 1 to 200 products per file. Photos match by file name.

One tray photo
AI quick capture drafts a listing for each piece. Or send us photos on WhatsApp.

THEN ENHANCE YOUR PHOTOS IN ONE TAP

BEFORE: SHOT ON THE COUNTER

AFTER: CLEAN CREAM BACKGROUND

Background removed, square, light brightness only. Colours are never changed, nothing is published until you review it, and your original is always kept.

Illustration. AI suggestions are drafts: weight, making charge, stones, certificates and VAT stay yours to enter.

YOUR STORE, YOUR RULES

You stay in control.

You are the seller

You own the stock, issue the invoice and handle refunds, exchanges and warranty under UAE rules.

Your making charge

Set it for every piece, and run offers on it with an end date.

Prices stay current

The gold value follows the live 24K reference, rechecked every 10 seconds.

You confirm first

Confirm availability and the final price in the time shown. Requests wait until you open.

Paid directly

Cash and card at handover from the start. Bank transfer and Aani after we approve your payment details.

Your delivery

Your own staff or a courier you appoint. Customers can also collect from your store.

Known buyers

Every buyer passes an identity check before an order reaches you. You see that it passed, not the ID images.

Verified reviews

Only customers who completed a purchase can review you.

You keep what you sell.

NO LISTING FEE · NO COMMISSION · NO SUBSCRIPTION

WHAT YOUR CUSTOMERS SEE

Every charge on its own line. The fee never comes out of your amount.

Customers pay Get Gold a separate service fee of 1% (half price on their first three orders). When a customer pays you directly, you pass that fee to Get Gold under the process agreed in writing.
