

GET GOLD

COMPANY BRIEF FOR INVESTORS AND PARTNERS

Bringing the UAE gold market *online.*

Get Gold is a live-priced, itemised marketplace for gold from verified UAE stores. Buyers compare like for like and pay the store directly. Stores get a free digital channel that prices itself on the live rate.

October 2026. Figures are sourced on each page. Targets are plans, not results.

THE PROBLEM

Buying gold in the UAE still means *walking the souk.*

For buyers

- Gold is priced on a live rate, but buyers only see it shop by shop, in person.
- The making charge differs by store and is rarely written down.
- Comparing the same bangle across five shops takes an afternoon.

For jewellers

- Many souk jewellers sell only in person, with no catalogue customers can browse.
- A webshop with live gold pricing is costly to build and run for one store.
- Generic marketplaces aren't built for gold: daily prices, karat and making charges.

OUR ANSWER

One shared live rate

Every store prices gold from the same 24K reference.

Every charge itemised

Making, stones, fee, delivery and VAT on their own lines.

Stores side by side

Verified stores compared in one view, not one afternoon.

Paid to the store

Buyers pay the store directly after it confirms the price.

THE PRODUCT

Live today at getgold.ae.

Live pricing

A 24K reference rechecked every 10 s; requests pause if a quote is 60 s old.

Itemised breakdown

Gold value, making, stones, fee, delivery and VAT, each on its own line.

Compare

Up to four stores, ranked by final total or making charge, with a Value Score.

Size guide

Rings, bangles and diamonds sized on the buyer's own screen.

Requests and visits

Buyers describe a piece once and stores reply with offers; store visits on request.

Known buyer

A single-use identity check (Didit) on every order; stores see the result only.

Vendor tools

AI tray capture, spreadsheet upload (1–200 items) and one-tap photo enhancement.

Bilingual, bars and coins

English and Arabic throughout; bullion priced by certified fineness.

Buyer requests → ID check → Store confirms price → Buyer pays the store → Delivery or collection

Get Gold does not hold customer money in the current model. Stores remain the seller of record.

THE MARKET

A large market that still buys *offline.*

DMCC event listing, March 2026

24K GOLD, AED PER GRAM, 2026

On 22 October, 24K was −18.6% below February's average. In Q2 2026, UAE bar and coin demand (5.3 t, up 30%) almost matched jewellery (5.6 t, down 28%). When gold is expensive, buyers compare harder, and the making charge decides where they buy.

Sources: World Gold Council Gold Demand Trends (full year 2025; Q2 2026 as reported by Khaleej Times and Emirates 24|7); Aletihad; World Bank Pink Sheet monthly averages converted at AED 3.6725/US$ and 31.1035 g/oz; getgold.ae 24K reference on 22 Oct 2026.

BUSINESS MODEL

Customers pay a small fee. *Founding stores list free.*

1%

Customer service fee on the merchandise price, on its own line; 0.5% on a customer's first three orders.

AED 0

For founding stores, for life: no listing fee, subscription or commission.

Planned: promoted listings and featured placements for stores that want more visibility.

GO TO MARKET: SUPPLY FIRST, THEN DEMAND

- Founding offer: free for life
- Bilingual outreach and shop visits
- Done-for-you setup
- Weekly social content in English and Arabic
- Search: gold rate and area pages
- Rate alerts and seasonal peaks
