2013 – 2018

PROFILE

Senior Customer Success and Account Management professional with 5+ years in B2B SaaS and ERP across the UAE and GCC. Currently manage a portfolio of 160+ key accounts at Odoo, owning retention, renewals, and account expansion — reaching 178% of target in Q1. My career spans the full commercial cycle (SDR → BDR → Account Management → Senior Customer Success), combining a sales-trained commercial instinct with consultative account management to drive ERP adoption, protect renewals, and convert satisfied clients into long-term advocates.

PROFESSIONAL EXPERIENCE

Senior Customer Success Manager

Odoo Middle East — Dubai, UAE | 2024 – Present | ERP & Business Software

- Manage a portfolio of **160+ key accounts** across the UAE and GCC, exceeding quarterly targets — **reaching 178% of target in Q1** — while sustaining performance through organizational restructuring.
- Own Key Account Management for high-value clients, driving adoption, retention, and expansion of complex ERP implementations across multiple industries.
- Lead renewal and upselling conversations, aligning the Odoo roadmap with each client's growth objectives to maximize account lifetime value.
- Grow revenue and market reach by converting satisfied clients into active referral advocates and new-business pipeline.
- Partner cross-functionally with consulting and development teams to deliver smooth, measurable ERP implementations.

Business Development Representative & Account Manager

Subsbase | 2023 – 2024 | B2B SaaS

- Ran full-cycle business development — from lead generation and market analysis through to qualified opportunities — to expand the client base.
- Identified and developed new business opportunities, building pipeline across target segments.
- Conducted market and competitor research to surface trends and sharpen go-to-market positioning.
- Presented tailored value propositions and built long-term client relationships supporting growth and retention.

Senior Sales Development Representative

PlanRadar | 2021 – 2023 | Construction & Real Estate SaaS

- Built and qualified a healthy pipeline by sourcing new business through targeted cold outreach to decision-makers across **9 industries**, including Construction and Retail.
- Managed the full pre-sales cycle — discovery, needs analysis, and tailored solution demos — to advance qualified opportunities.
- Customized product solutions to client needs, improving satisfaction and building long-term relationships, tracked in CRM.
