

# Become a Get Gold vendor

From account creation to your first live listing.

01

## Create a vendor account

Open the link below. Select Vendor; enter your name, UAE phone, email and a unique password of at least 12 characters. Complete the security check, then tap Create vendor account.

02

## Verify your email

Open the Get Gold verification email and follow its link. Then sign in using the same email. If you do not see the message, check Spam or Junk.

[getgold.ae/login?role=vendor&next=/vendor](https://getgold.ae/login?role=vendor&next=/vendor)

03

## Fill in store details

On the application, complete Contact person, Business profile and Store capabilities. Use the official name and number on your trade licence. If Website is Yes, add its link.

04

## Pin the exact shop location

Enter the full address. At the shop, tap Use my current location, or paste a Maps link with exact coordinates. Confirm Pin saved appears before submitting.

# Finish your store setup

A few accurate settings make orders easier to manage.

05

## Submit your application

Trade licence and Emirates ID copies are optional at this first stage (PDF, JPG or PNG; 10 MB each). Tap Submit vendor application. Later uploads are under Store tools & help > Documents.

[getgold.ae/vendor/documents](https://getgold.ae/vendor/documents)

06

## Check approval status

Open Overview. While Get Gold reviews your store, you can save product drafts. You cannot submit products for approval or receive orders until the store is approved.

[getgold.ae/vendor](https://getgold.ae/vendor)

07

## Choose payment and delivery

After approval, open Payments & hours. Select your methods (Aani/bank details need review) and own staff or courier. Set one delivery fee per order: 0 means free; pickup has no fee. Tap Save payment & delivery settings.

[getgold.ae/vendor/payments](https://getgold.ae/vendor/payments)

08

## Save your working hours

On the same page, scroll to When are you open? Set each open day and its hours in UAE time (GMT+4). Tap Save working hours. Requests received while closed wait until you open.

# Add your first product

Each piece can have its own weight, making charge and VAT choice.

09

## Open Add a product

From Overview tap + Add a product. Or open Products and tap + Add product. You can save a draft even before store approval.

[getgold.ae/vendor/products/new](https://getgold.ae/vendor/products/new)

10

## Enter the exact item details

Add a clear name, category, gold purity, net gold weight in grams (exclude stones), stock quantity and a description of at least 20 characters. Use quantity 1 for a unique piece. The title and purity must agree.

[getgold.ae/vendor/products/new](https://getgold.ae/vendor/products/new)

11

## Upload the real item's photos

In 2. Photos, choose at least one actual product photo. The first image is the cover; you can reorder it. Maximum: 8 photos, 5 MB each. Wait until upload finishes before saving.

12

## Set charges and VAT

In 3. Charges & VAT, enter making per item, not per gram; 0 is allowed. Add certificate fee only with its reference. For bars/coins add a certificate reference or hallmark. Choose the correct VAT treatment for your business.

# Review, publish, respond

Customers pay your store only after you confirm availability and price.

13

## Review and submit

Check the Listing preview and Ready for review? list. Tap Save draft to return later, or Submit for review after your store is approved. Get Gold must approve the listing before it appears publicly.

[getgold.ae/vendor/products/new#piece-review](https://getgold.ae/vendor/products/new#piece-review)

14

## Keep stock current

Open Products to see Drafts, In review, Approved and Needs attention. Tap Edit product to correct details. Use the stock-check button only after physically checking the item in your store.

[getgold.ae/vendor/products](https://getgold.ae/vendor/products)

15

## Handle a buyer request

Open Orders > Confirm requests. Confirm the piece is available and send the final current price. The buyer accepts before paying your store. For transfers, check cleared funds in your account; a screenshot alone is not proof.
